

Assessment 3
Blue Savanna
Science Lesson

Student Reflection

Name _____

Date _____

Overview of the project: First, we studied Dahlov Ipcar's painting *Blue Savanna* to jumpstart our conversation about biomes. We divided into groups to research biomes and to create a poster of your biome. You also selected one animal to research, then made drawings of that animal that were incorporated into a group collage. We also made paintings of our animals in art class.

1. Which part of the project did you enjoy the most? Circle the letter of your answer.
 - A. I enjoyed reading and learning about the biomes and my animal.
 - B. I enjoyed working with my group to create the biome poster.
 - C. I enjoyed working with my group to create the animal collage.
 - D. It's hard to pick one because I enjoyed each part.

2. How did our work in the classroom help you when you started your painting in art class? Circle all answers that are true for you.
 - A. The sketches I made for the collage helped me with my painting.
 - B. Learning about the biomes helped me to add details to my painting.
 - C. The book I brought to art class helped me with my painting.
 - D. The work in the classroom didn't help me that much with my painting in the art room.

3. If the teacher does this project again next year, she should... Circle the letter of your answer.
 - A. Allow more time to read/learn/write about biomes.
 - B. Show more examples of collages.
 - C. Have the students work in pairs instead of groups of three.
 - D. Keep things the same as this year.

4. What advice would you give the teacher if she does this project again next year?

5. What advice would you give a fourth grader who might do this project next year?

6. Do you have any other comments about the project or your work?
